

Aman Gaikwad

SOC Analyst — Level 1 | Blue Team · Threat Detection · Incident Response

amangaikwad231493@gmail.com · [linkedin.com/in/aman-gaikwad](https://www.linkedin.com/in/aman-gaikwad) · github.com/aman-cyber07 · India

SUMMARY

Aspiring SOC Analyst L1 with hands-on training in threat detection, incident response, SIEM monitoring, and log analysis. Skilled in triaging alerts across Windows, Linux, and network logs; identifying common attack patterns (phishing, brute force, password spraying, lateral movement); and correlating multi-source evidence using MITRE ATT&CK, Cyber Kill Chain, and Pyramid of Pain. Passionate about blue team defense and continuous learning.

TECHNICAL SKILLS

Security	Incident Response · Threat Intelligence · Vulnerability Assessment · Alert Triage · IOC Analysis
Networking	TCP/IP · Firewall / IDS / IPS · Packet Analysis · VPN · Proxy Logs
SIEM / Tools	Splunk · Splunk SOAR · Microsoft Sentinel · Wazuh · Suricata · Snort · Wireshark · Nessus · Nmap · pfSense · Active Directory · Jira · VirusTotal · AbuseIPDB
Frameworks	MITRE ATT&CK · Cyber Kill Chain · Pyramid of Pain
Programming	Python · Bash · PowerShell
Log Sources	Windows Event Logs (4624, 4625, 4672, 4688) · Linux syslog / auth.log · EDR alerts · Firewall · IDS/IPS · Apache / IIS web logs

SECURITY PROJECTS

MCPGuard — Runtime Security for AI Agents

github.com/aman-cyber07/mcpguard

Runtime security analyzer that detects malicious tool chains in AI agents using the Model Context Protocol. Builds a live capability graph of agent behavior and blocks data-exfiltration paths before data leaves the perimeter.

[AI Security](#) · [MCP](#) · [Runtime Analysis](#)

AI HoneyPerson — LLM-Powered Deception

github.com/aman-cyber07/ai-honeyperson

Defensive deception system that creates LLM-powered fake employees to engage attackers during social engineering attempts. Detects intent, maps behavior to MITRE ATT&CK, and extracts IOCs — harder to detect than traditional honeypots.

[Deception](#) · [LLM](#) · [MITRE ATT&CK](#)

PermissionForecast — Predictive IAM Risk

github.com/aman-cyber07/Permission-forecast

AI-powered IAM tool that predicts privilege escalation before it happens. Detects dangerous permission chains (e.g., iam:PassRole + lambda:InvokeFunction), assigns risk scores, and recommends minimal-fix counterfactuals.

[IAM](#) · [Cloud Security](#) · [Risk Scoring](#)

IntentFirewall — Intent-Based Access Control

github.com/aman-cyber07/intent-firewall

Access-control system for AI agents that compares declared objective against observed runtime behavior. Computes a divergence score; pauses agent execution above 70% divergence to prevent insider-style misuse.

[AI Agents](#) · [Access Control](#) · [Behavioral Analytics](#)

DataGravity — Predictive DLP

github.com/aman-cyber07/DataGravity

Predictive data leak prevention tool that maps users, apps, data, and AI tools into a graph. Predicts exfiltration paths with probability scores, detects PII, and can auto-revoke permissions or alert Slack.

[DLP](#) · [Graph Analysis](#) · [PII Detection](#)

HANDS-ON SOC LABS

Windows Brute-Force Detection (Event ID 4625) in Splunk	Splunk Universal Forwarder — Linux & Windows log ingestion
IIS Web Server setup with SIEM log analysis	Full SOC lab build — network, VMs, monitoring stack
PHP integration for structured web app logging	Windows Server logs → Splunk Enterprise
DVWA + Splunk — end-to-end web attack visibility	Real-time RDP brute-force alert in Splunk
SQLi simulation and Splunk detection queries	Wazuh File Integrity Monitoring (FIM)
Wazuh SSH brute-force detection on Linux	Azure Lighthouse for MSSP & cross-tenant SOC ops

EDUCATION

BE in Computer Engineering	2023 – 2027
Savitribai Phule Pune University (SPPU)	
12th (Science — PCM)	2023
Kendriya Vidyalaya Sangathan	
10th	2021
Kendriya Vidyalaya Sangathan	

CERTIFICATIONS

SOC Analyst Program	Seven Mentor
CEH v13 — Certified Ethical Hacker	Seven Mentor
WAPT — Web Application Penetration Testing	Seven Mentor
CCNA — Cisco Certified Network Associate	Seven Mentor
Red Hat Linux Administration	Seven Mentor

SOFT SKILLS

Strong communication & documentation	Analytical & critical thinking
Problem-solving under pressure	Attention to detail
Quick learner with research mindset	Team collaboration & knowledge sharing
Time management & task prioritization	Adaptability to new tools & technologies
